- Silicon Cape Initiative

Awards

- Recipient of 2010 Kirchhoff Family Fine Arts Scholarship

Focus of Interest

I seek a permanent or contract position where my skills in graphic and interactive design and development can be put to good service. Wordpress and wireframes have been a recent focus. Job assignments where I have the ability to both work with code as well as design are a pleasure, and I can pick up and understand new software quickly. Past experience with customer service makes me well-suited to working with clients.

Related Experience

DESIGNER - GRAPHIC & WEB DESIGN INTERN

R.O.I. Media, Cape Town, South Africa (January 2011-July 2011)

Performed a combination of client and in-house work ranging from back-end clean up and maintenance of code to graphic design and Flash animation.
